

Product Overview

The Pressac RJ11 Eurostyle Module is designed for installation into the range of Pressac Eurostyle single, double and quad faceplates. With an industry leading low profile, it has been independently tested to all relevant FCC 68 specifications.

Features & Benefits

- 19mm Low profile
- RJ11 pins 1 to 6 connected
- LSA compatible IDC connectors
- Shuttered access to protect from dust ingress
- Manufactured from V0 flame retardant PVC

Additional Information

The incoming terminating cable can be 'tied' to the module offering strain relief. As standard, the module is provided with a recessed area above the shuttered aperture for port identification using an industry standard labeling system or the stick on label provided. With an industry leading 19mm profile, the RJ11 Eurostyle module is particularly suited to trunking environments where space for internal cable management is at a premium.
